

Something HIDDEN, Something EXTRA Something to LEAN ON, and just for YOU.

arolin Stone Jewellery believes in the power of healing gemstones, each with their unique properties.

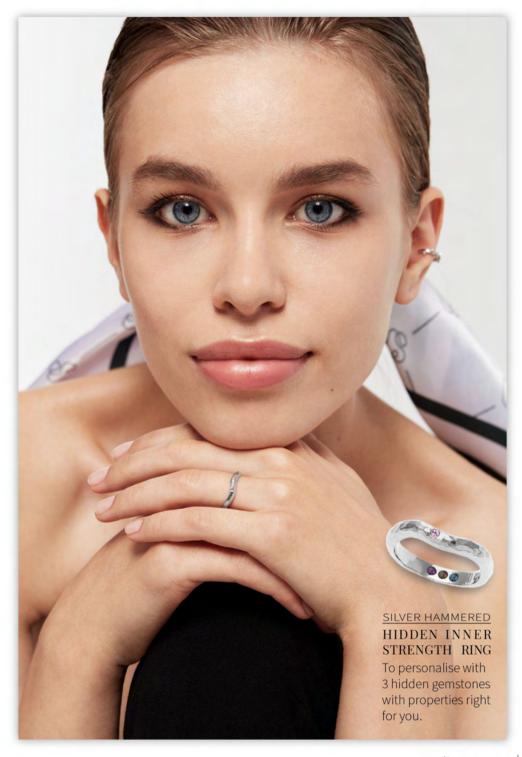

unique stylish, create minimalist gemstone jewellery in silver & gold, some including hidden gemstones.

You can select their gemstones with the most suitable properties to fulfil your needs.

Truly bespoke, personalised *jewellery* with the unique properties you require.

For the more colourful look, we have jewellery with visible gemstones.

Gemstone properties are hidden to the world but provide you with inner strength, something extra, only known to you, something to and just lean on. for you.

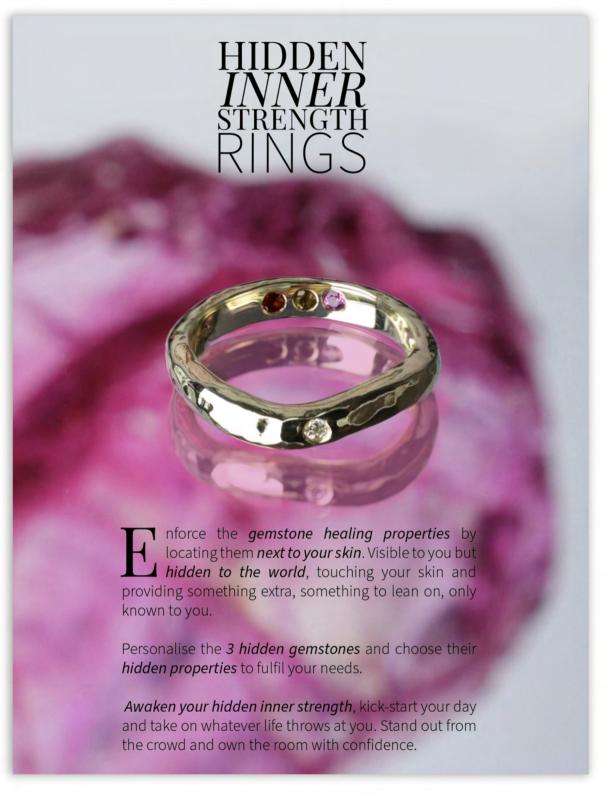

Gemstones have unique hidden properties. Formed over millions of years, they have been charged by nature with something special.

They act as a conduit to an oasis of latent energy free flowing from Mother Earth and energising the wearer with properties that complete you.

Something hidden, something extra, something to lean on... and just for you.

Hidden gemstones with *hidden* properties to awaken your *hidden* inner strength.

PEROSNALISE WITH 3 HIDDEN GEMSTONES FROM A CHOICE OF 6.

Carolin Rossa

THE FOUNDER AND DESIGNER

ince 2018 Carolin Rossa has been designing unique gemstone jewellery with the 'wow' factor for her brand Carolin Stone Jewellery.

She's a young entrepreneur, expert and visionary in the field of luxury global fashion brands.

Carolin has been passionate about gemstones and their healing properties all her life. Her vocation and passion are to design unique gemstone jewellery with properties to help every woman achieve their full potential.

'I want all women to walk tall, shine brightly, and feel like they're a star.' Carolin Rossa

Sustainable & environmentally friendly brand

OUR WAY TO A CLIMATE-NEUTRAL COMPANY - PLANT-MY-TREE®:

Trees reduce our CO2 emissions, and release oxygen into the air. We want to give back to nature and support the climate of our planet by co-operating with Plant-My-Tree®, a certified project for forestation.

With every order you make we plant a tree on you behalf. Our long-term aim is to plant a million trees. Buy now and we'll plant a tree in your name. Together we can make a difference.

RECYCLING:

We reduce all production waste where possible, collecting offcuts and material waste to recycle into new CSJ pieces where possible.

ETHICAL STANDARD:

Our gemstones are only sourced from conflict-free semi-precious stones. We also only use lab diamonds where possible, to remove all potential credibility issues. The semi-precious gemstones are ethically sourced from reliable countries only and accreditations are checked regularly.

Silver and gold are sourced from reliable sources. We check their accreditations quarterly to ensure compliance with our ethical and environmental standards.

"This is only the beginning, sustainability and environmentalism are a lifelong passion at CSJ. We'll leave no stone unturned to ensure we improve day by day and year on year because the future is in our hands" - Carolin Rossa.

Sustainable *Packaging*

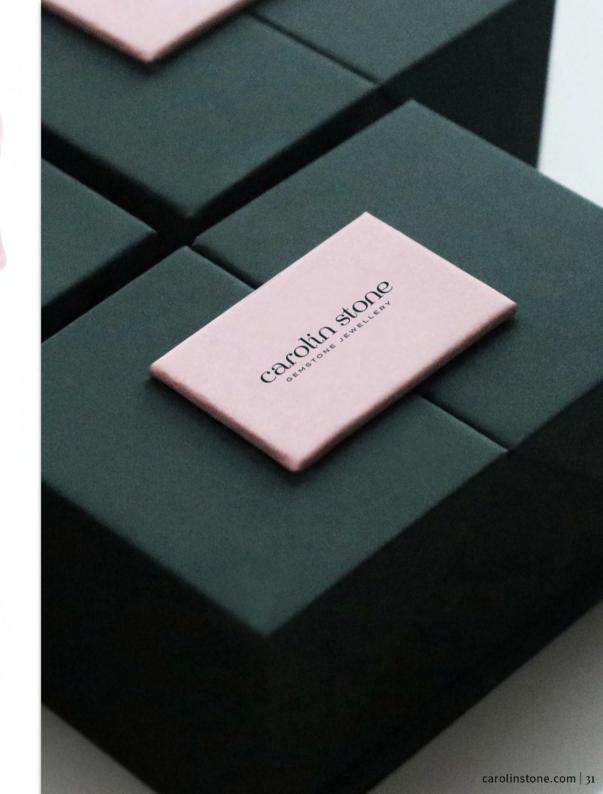

3 principles drive our packaging choices:

- 1. *Environmentally friendly materials* that are easily recycled, including carbon paper.
- 2. Beautiful designs creating unique experiences when opening. The box has a magnet to re-enforce the opening and closing effect. Like the lotus flower, the box opens to both sides, a symbol of enlightenment and purity. It is complemented

with a soft velvet pouch, ideal for travelling and keeping the jewellery safe for a lifetime.

3. *Created in our branded colours* of dark green and light pink for a soft feminine look.

We continually seek to improve our packaging and are always receptive to new ideas. Get in touch if you need something more bespoke. We're here to help.
